

# WIEN U-BAHNNETZ

Vienna Metromap System Dashboard: **Dec 1st, 2020 - Dec 31st, 2020**

Total selected stations: **67**

Average Daily Ridership by Station

This is the overview of the transit system. The date, line, and hour filters allows the user to be able to zoom and filter to select-ed details. The reset button allows the user to reset the page to this over-view. The ridership filter would be programmed to update as the other filters update.

Total Daily Ridership

Average Hourly Ridership

# WIEN U-BAHNNETZ

Vienna Metromap System Dashboard: **Dec 1st, 2020 - Dec 15th, 2020**

Total selected stations: **20**

Average Daily Ridership by Station

This view shows how the page would look after the user adjusted the filters on the left. The **Total daily ridership** graphic would automatically adjust the x- and y-axes as well as filter to selected lines. The graphic **Average Daily Ridership by Station** greys out unselected information and adjusts the total ridership according to the dates selected.

Total selected stations: **67**

Average Daily Ridership by Station

This view shows how the page would look after the user clicks one of the stations. Both graphs would update to show just the data for that specific station. To de-select and show the line, the user could uncheck the legend.
